Financial & Analytical Experience

Equity & Fixed Income Analyst Intern

Student Managed Investment Fund | Cal Poly Pomona | June 2019 - January 2021

- Supported scenario-based forecasting and sensitivity analysis to evaluate market and interest-rate impacts.
- Performed financial and statistical analysis to support portfolio allocation and performance evaluation across equity and fixed-income holdings.
- Built Excel-based financial models to analyze returns, sector weightings, duration exposure, and scenario-based allocation outcomes.
- Conducted recurring variance and performance analysis, summarizing results for investment committee review.
- Assisted with fixed-income analysis, including yield curve evaluation, duration calculations, and interest-rate sensitivity assessments.
- Automated elements of fixed-income risk tracking using Python, improving accuracy and consistency of reporting outputs.
- Prepared written and visual summaries translating quantitative findings into actionable insights for non-technical stakeholders.

Operational and Data Experience

School Photographer Contractor

Sunset School Portraits | Santa Ana, CA | April 2021 – Present

- Supported high-volume, deadline-driven operations requiring accuracy, consistency, and process adherence.
- Tracked attendance, session completion, and operational data using Excel for reconciliation and reporting purposes.
- Coordinated logistics and schedules with school administrators and internal teams to ensure smooth daily operations.

Owner & Photography Lead

Omar Pelcastre Photography | Southern California | August 2013 – Present

- Maintained detailed records of bookings, payments, and deliverables, ensuring accurate documentation and timely delivery.
- Coordinated with multiple stakeholders under strict timelines, reinforcing organizational and communication skills applicable to analytical roles.
